## SUMMARY

NUS Master of Communication graduate (Data and Communication) and First-Class LSE graduate in Data Science and Business Analytics, bilingual in English and Bahasa Indonesia. Experienced across fintech and banking with a track record in system enhancement, data migration delivery, and cross-functional requirements work, translating business needs into operational improvements for merchant and banking partners.

## CORE SKILLS

**Languages & Querying:** Python, SQL, R, SPSS

**BI & Visualization:** Tableau, Power BI, Google Sheets, Lark

**Microsoft Office:** Excel, PowerPoint, Word, Outlook

**Data Work:** Dashboarding, data cleaning & validation, automated reporting, data migration

**Spoken Languages:** English (fluent), Bahasa Indonesia (native)

## PROFESSIONAL EXPERIENCE

### KPay Merchant Service (Singapore) Pte. Ltd.

Sep 2025 - Mar 2026

Data Analyst Intern

Singapore

- Built dashboards analysing payment data for 10,000+ merchants, giving stakeholders visibility into product usage, revenue performance, and growth trends.
- Conducted merchant profitability and acquirer-level analysis to support routing and pricing decisions, contributing to ~21% average GPV growth across merchant segments and improved net take rate.
- Automated recurring reports and data workflows, and supported the platform data migration that improved data accuracy and reliability.
- Cleaned and validated payment and merchant data in Python using fuzzy matching to ensure integrity across business reviews and reporting.

### PT Bank Central Asia Tbk (BCA)

Dec 2023 - Jul 2025

Analyst, Partnership & Benefits | Individual Customer Business Division

Indonesia

- Analysed transaction data across 20+ merchant partners, identifying ~10% average YoY sales uplift through BCA's internal transaction system.
- Examined benefits-usage data from data warehouse (DWH) extracts to identify high-value usage patterns, which informed the design of new premium benefit offerings.
- Enhanced an internal benefit-tracking web app (OutSystems), enabling service teams to log and manage premier banking benefits and improving reporting visibility.
- Planned and ran exclusive events (expos, forums) for high-net-worth clients to strengthen relationships and engagement.

## EDUCATION

### National University of Singapore

Aug 2025 - Jun 2026

Master of Communication, Data and Communication Specialisation | GPA: 4.6 / 5.0

### London School of Economics (University of London)

Oct 2020 - Aug 2023

BSc Data Science & Business Analytics, First Class Honours

- Achiever's Award recipient (2021); Distinction in the CHESS programme.

## CERTIFICATIONS & TECHNICAL TRAINING

### Dibimbing.id Bootcamp - Business Intelligence (online bootcamp)

Dec 2024 - Jun 2025

- Hands-on training in Python, SQL, Tableau, and Power BI.

### Rakamin Bootcamp - Data Science (online bootcamp)

Jul 2022 - Nov 2022

- Python and SQL fundamentals; analysed e-commerce business performance using SQL.

## CO-CURRICULAR

### Indonesian Students' Association in Singapore (PPIS)

Dec 2020 - Dec 2022

Technology & Digital Transformation Sub-committee

- Grew membership data 17% by restructuring the application workflow; ran quarterly Tableau analysis.
